

## Isles of Scilly Seabird Recovery Project 2013, 2014, 2015 and 2016

### St Agnes

#### St. Agnes May 2013, 2014, 2015, 2016 - Foreshore

**AG 1.** St. Agnes foreshore May 2013

**AG 2.** St. Agnes foreshore May 2014 showing gradient change and sand

**AG 3.** St. Agnes foreshore May 2015 showing sand inundation

**AG 4.** St. Agnes foreshore May 2016 showing vegetation growth and re-stabilisation of habitat

#### St. Agnes May 2013, 2014, 2015, 2016 - Scrub

**AG 5.** St. Agnes scrub May 2013 showing gorse in flower.

**AG 6.** St. Agnes scrub May 2014 gorse not in flower.

**AG 7.** St. Agnes scrub May 2015 showing some opening up of scrub habitat

**AG 8.** St. Agnes scrub May 2016 showing further opening up of scrub habitat

**St Agnes September 2013, 2014, 2015, 2016 - Foreshore**

**AG 9.** St. Agnes foreshore September 2013

**AG 10.** St. Agnes foreshore September 2014 showing sand-cover

**AG 11.** St. Agnes foreshore September 2015 showing vegetation growth and re-stabilisation of habitat

**AG 12.** St. Agnes foreshore September 2016 showing little change in vegetation growth

**St Agnes September 2013, 2014, 2015, 2016 - Heathland**

**AG 13.** St. Agnes heathland September 2013

**AG 14.** St. Agnes heathland September 2014 with denser growth of vegetation

**AG 15.** St. Agnes heathland September 2015 showing similar growth to 2014

**AG 16.** St. Agnes heathland September 2016 showing some slight reduction

**St Agnes September 2013, 2014, 2015, 2016 - Scrub**

**AG 17.** St. Agnes scrub September 2013

No image available

**AG 18.** St. Agnes scrub September 2015 showing some reduction in scrub habitat

**AG 19.** St. Agnes scrub September 2016 showing further opening of scrub habitat

**Gugh**

**Gugh May 2013, 2014, 2015, 2016 – Heathland and scrub**

**G 1.** Gugh heathland and scrub May 2013

**G 2.** Gugh heathland and scrub May 2014 'burnt' gorse and rubbish

**G 3.** Gugh heathland and scrub May 2015 'burnt' gorse

**G 4.** Gugh heathland and scrub May 2016 showing some gorse regeneration

**Gugh May 2013, 2014, 2015, 2016 - Heathland**

**G 5.** Gugh heathland May 2013

**G 6.** Gugh heathland May 2014

**G 7.** Gugh heathland May 2015

**G 8.** Gugh heathland May 2016

**Gugh May 2013, 2014, 2015, 2016 - Scrub**

**G 9.** Gugh scrub May 2013 showing Gorse in flower.

**G 10.** Gugh scrub May 2014 located close to the shoreline showing brown vegetation and missing foliage.

**G 11.** Gugh scrub May 2015 located close to the shoreline showing high frequency of Bramble

**G 12.** Gugh scrub May 2016 located close to the shoreline showing vegetation re-growth and encroachment of Bramble

**Gugh September 2013, 2014, 2015, 2016 - Scrub**

**G 13.** Gugh scrub September 2013  
Viewed from south-south-east.

**G 14.** Gugh scrub September 2014 close to the shoreline showing brown vegetation and missing foliage. Viewed from south-south-east.

**G 15.** Gugh scrub September 2015 viewed from the north. Showing regrowth of vegetation and foliage and higher volume of Bramble.

**G 16.** Gugh scrub September 2016 viewed from the north. Showing regrowth of vegetation and foliage and higher volume of Bramble.

**Gugh September 2013, 2014, 2015, 2016 – Scrub and foreshore**

**G 17.** Gugh scrub and foreshore September 2013

**G 18.** Gugh scrub and foreshore September 2014.

**G 19.** Gugh scrub and foreshore September 2015 showing little change since 2014

**G 20.** Gugh scrub and foreshore September 2016 showing little change since 2014

**Gugh September 2013, 2014, 2015, 2016 - Foreshore**

**G 21.** Gugh foreshore September 2013.

**G 22.** Gugh foreshore September 2014 showing storm degradation to the foreshore habitat.

**G 23.** Gugh foreshore September 2015 showing a small increase in vegetation since 2014.

**G 24.** Gugh foreshore September 2016 showing recovering vegetation.

**Gugh September 2013, 2014, 2015, 2016 – Foreshore view 2**

**G 25.** Gugh foreshore September 2013.

**G 26.** Gugh foreshore September 2014 showing large areas of foreshore cut away.

**G 27.** Gugh foreshore September 2015 showing further foreshore cut away.

**G 28.** Gugh foreshore September 2016 showing vegetation re-growth on area of cut away.

**Gugh September 2013, 2014, 2015, 2016 – Coastal view**

**G 29.** Gugh September 2013

**G 30.** Gugh September 2014

**G 31.** Gugh September 2015

**G 32.** Gugh September 2016

**Bryher**

**Bryher May 2013, 2014, 2015, 2016 - Foreshore**

**B 1.** Bryher foreshore May 2013

**B 2.** Bryher foreshore May 2014 showing reduction in vegetation

**B 3.** Bryher foreshore May 2015

**B 4.** Bryher foreshore May 2016 showing re-formation of foreshore vegetation

**Bryher May 2013, 2014, 2015, 2016 – Coastal grassland 1**

**B 5.** Bryher coastal grassland May 2013

**B 6.** Bryher coastal grassland May 2014 showing brown Gorse

**B 7.** Bryher coastal grassland May 2015 showing stone and sand cover

**B 8.** Bryher coastal grassland May 2016 showing stone and sand cover

**Bryher May 2013, 2014, 2015, 2016 – Coastal grassland view 2**

**B 9.** Bryher coastal grassland May 2013

**B 10.** Bryher coastal grassland May 2014

**B 11.** Bryher coastal grassland May 2015

**B 12.** Bryher coastal grassland May 2016

**Bryher May 2013, 2014, 2015, 2016 – Change in vegetation heights adjacent to stone wall**

**B 13.** Bryher May 2013

**B 14.** Bryher May 2014

**B 15.** Bryher May 2015

**B 16.** Bryher May 2016

**Bryher May 2013, 2014, 2015, 2016 – Coastal grassland 3**

**B 17.** Bryher coastal grassland May 2013

**B 18.** Bryher coastal grassland May 2014 showing storm damage/sand coverage of vegetation

**B 19.** Bryher coastal grassland May 2015 showing recovery of vegetation

**B 20.** Bryher coastal grassland May 2016 showing further recovery

**Bryher May 2013, 2014, 2015, 2016 – General island view**

**B 21.** Bryher May 2013

**B 22.** Bryher May 2014

**B 23.** Bryher May 2015

**B 24.** Bryher May 2016

**Bryher September 2013, 2014, 2015, 2016 - Scrub**

**B 25.** Bryher September 2013 scrub (left) away from foreshore

**B 26.** Bryher September 2014

**B 27.** Bryher September 2015, little difference between years

**B 28.** Bryher September 2016, little difference between years

**Bryher September 2013, 2014, 2015, 2016 - Foreshore**

**B 29.** Bryher foreshore September 2013

**B 30.** Bryher foreshore September 2014 showing sand coverage of foreshore vegetation

**B 31.** Bryher foreshore September 2015 showing scattered re-formation of foreshore vegetation

**B 32.** Bryher foreshore September 2016 showing some coverage and some re-formation of foreshore vegetation
